Certificate of Commendation
June, 1970

"Because the demands made of them were so diverse, in degree of complexity, scale, etc. the solutions proposed by Urban Deadliners often entailed salvage or "re-adapted" materials, unskilled volunteer laborers coming directly from the community itself, and most formulating and thinking through a formal response to people's needs."

Alain Salomon, *Architecture d'Aujourd'hui*, Paris. Mai-Juin 1975: 35.

"1968: N.A.G. (Negro Action Group) sollicite Urban Deadline pour l'etude d'un programme d'equipement sur ce terrain vague de 2500m². Il declare représenter tous les habitants du quartier et pretend pouvoir obtenir des subventions importantes de la municipalite. Un programme en onze points nous est confie ("cloture autour du terrain", "zone plantee", "amphitheatre, etc"). *Architecture d'Aujourd'hui*, Paris Mai-Juin 1975: 50-57.
